

PRESS RELEASE

Bulgaria Air renews its full content agreement with Travelport

Nov 2nd 2016: Travelport has announced the renewal of its global, long-term, full content agreement with Bulgaria Air, the national carrier of Bulgaria. Bulgaria Air, which was founded in 2002, is headquartered in Sofia and flies to approximately 30 destinations in Europe, Africa, Middle East and Russia.

The renewal builds upon the two companies' long standing relationship and gives Travelport's global network of 68,000 travel agencies continued access to Bulgaria Air's content, fares, inventory and ancillary services. The content is already live and available to search, sell and book through Travelport's ground-breaking point of sale agency selling solution, Travelport Smartpoint. It is also available via Travelport's Universal API which allows online travel agencies and other travel companies wanting to create their own front-end user experience to access Travelport's content and functionality.

Yanko Georgiev, Executive Director at Bulgaria Air said: "We have been impressed by Travelport's innovative technology and products, which are adding real value to our business. By renewing our full content agreement, we at Bulgaria Air will continue to deliver our content to travel agents and effectively promote offerings to business and leisure travelers."

David Gomes, Commercial Director Air Commerce at Travelport said: "We are delighted that Bulgaria Air, a long-standing customer of Travelport, has renewed its full content agreement. Our travel agency customers benefit hugely from having the broadest possible travel content to book and so it's good news that they will continue to be able to access Bulgaria Air's fares and ancillaries."

About ITQ
