

## **InterGlobe Technology Quotient showcases its expertise in Travel Technology in Bhubaneswar**

**Bhubaneswar, March 12, 2013:** InterGlobe Technology Quotient, a strategic business unit of InterGlobe Enterprises and the official distributor of Travelport Galileo and Travelport Worldspan, through Calleo Distribution Technologies, today initiated a series of road-shows to showcase their travel, hospitality and technology related products to the travel agents. The roadshow is being launched in Bhubaneswar in association with Travelport.

The activity was to create awareness amongst the travel agents about InterGlobe Technology Quotient's cutting edge travel technology solutions with unmatched airline and hotel inventory that could enhance their customer's experience and at the same time help them to increase their productivity and business efficiency.

Speaking at the event, **Sandeep Dwivedi, Chief Commercial Officer, InterGlobe Technology Quotient**, said "Travel industry, all across the world, is experiencing a massive evolution. It is an outcome of growing number of passengers, flying in and out of the country and higher frequency of using state of the art travel technology like Global Distribution System (GDS) as an efficient travel booking tool."

Travelport, in association with InterGlobe Technology Quotient continues on its commitment towards providing technologies and products that would enable customers to promote richer content and reduce the cost of doing business. The road-show in Bhubaneswar sought to bring together our key customers, travel agents to help them understand the Company's initiatives to invest in solutions based on ground breaking technology that provide huge benefits to the agents and enrich the travel experience of a modern day traveller.
