

PRESS RELEASE

InterGlobe Technology Quotient showcases at SATTE 2017

Jan 27th 2017: With technology redefining every aspect of travel and tourism industry in the recent years, InterGlobe Technology Quotient has emerged as a mammoth of advanced technological solutions. This year at SATTE we plan to demonstrate unique features that make us technology leader. Catch us at 2017 SATTE Show in Pragati Maidan from February 15th - 17th at Booth# C5 and know us better. Here is a glimpse of our advanced set of products:

Travelport Smartpoint 7.2 has been designed to transform the way travel agencies work. With more content and more features, it's better than anything you have seen before- to help you sell more, earn more and meet your customer's need. Travelport Smartpoint 7.2 is able to do the following more than the set of features present now:

- Streamline issuing EMDs with easy-to-use screens for SVC segments.
- Sell more hotels and cars with improved user interfaces.
- Select seats more easily with clearer and larger seat maps.
- Increase usability with interactive responses from cryptic Fare Shopping entries.
- Add value for your travelers with access to a wide range of travel solutions via Travelport Marketplace.
- Benefit from the latest version of Travelport Smartpoint more efficiently with incremental updates via Travelport Marketplace; and many more.

Along with this, we have products designed specifically to meet the necessities of our clientele.

Our Travelport Merchandising Suite offers unique branding opportunities for airlines to display their ancillaries in the best possible way. As the ancillary revenue continue to soar at almost 60 billion dollars worldwide, the importance of apt display tools and customized travel solutions come in. Now with 212 airlines onboard, including Indigo, on Travelport Merchandising Platform, travel agents across the world have access to more ancillaries and therefore, customized travel solutions for their customer.

ITQ Financials is an exceptional introduction that enables travel agencies and their PAN-India offices to automate their fund handlings, through this online back-office travel accounting software which is integrated with basic accounting package i.e. Tally, and is compliant with all the latest amendments of various acts and ready for GST.

VR3 (Void, Reissue, Refund, Revalidation), as the name indicates, acts as a back office tool that performs the following functions Void, Reissue, Refund, Revalidation.

Galstar and uAPI have been developed to ease the online work flow of online travel agents, including the agencies that are aspiring to go online.

Self Booking Tool and Corporate Booking Tool are two highly advanced products that can streamline work and help in easy management of bulk bookings. This customizable state-of-the-art, comprehensive, web based, scalable end to end booking and fulfillment tool is used for managing your business with self-booking capability for customers.

And for hotel booking, we have Travelport Rooms and More, Roomaster, and Hotelzon which offer complete and accurate hotel shopping and booking system. Travelport being hailed as the fourth largest aggregator of Hotel content worldwide with more than 650,000 properties available, travel agencies have an ocean of inventories to book from.

Sandeep Dwivedi, Chief Commercial Officer at ITQ comments, "We are committed to bring best-in-class futuristic technology to address growing industrial demand. We already have products that are right now catering to smarter travel business management, but we aim to go a step forward and portray ourselves as leader in travel technology innovation through advanced solutions."

Join us at SATTE 2017 and get a taste of what the technological revolution holds. We're There to assist you and make your business more future savvy.
