LANGLEY, England, April 7, 2021 /CNW/ -- Worldwide leader in travel retail, Travelport, has today launched its nextgeneration platform, Travelport+. Travelport+ is the centerpiece of Travelport's new global strategy and is designed to accelerate industry innovation in multi-source content distribution, travel retailing and value generation.

Travelport+ truly changes the game in the speed of delivery of modern travel retail

Travelport+ is an extensive, next-generation platform that creates a simplified, capability-rich, marketplace for travel retailing. As travel distribution has evolved, retrofitting new types of distribution into existing platforms has led to increased complexity across the industry, slowing progress. Travelport+ is a true multi-source platform offering more dynamic, differentiated, retail-ready content, delivering better choices for retailers and consumers, in a faster, frictionless way.

"It's a monumental moment in our history and in the development of our industry", said Greg Webb, Chief Executive Officer at Travelport. "Travel hasn't kept up with the evolution of modern digital retail and today, the buying and selling of travel is more complex than it needs to be. As Travelport is the only dedicated, global, travel distribution platform, we have made a multi-year investment to accelerate
