

Travelport+: The next-generation platform for the new era of travel

Travelport+ is an extensive, next-generation platform that creates a simplified, capability-rich, marketplace for travel retailing.

ETTravelWorld • April 12, 2021, 11:44 IST

Travelport has today launched its next generation platform, Travelport+. It is the centerpiece of Travelport’s new global strategy and is designed to accelerate **industry innovation** in multi-source content distribution.

Travelport+ is an extensive, next-generation platform that creates a simplified, capability-rich, marketplace for travel retailing. “It’s a monumental moment in our history and in the development of our industry,” said Greg Webb, Chief Executive Officer at Travelport. “Travel hasn’t kept up with the evolution of modern digital retail and today, the buying and selling of travel is more complex than it needs to be. As Travelport is the only dedicated, global, travel distribution platform, we have made a multi-year investment to accelerate industry innovation in travel retailing. Bringing together the best of Travelport’s existing capabilities and tools and driving innovation to deliver the unmet needs of our industry, Travelport+ truly changes the game in the speed of delivery of modern travel retail and offers a fundamental upgrade to travel **technology**,” added Webb.

Travelport+ will bring together the most compelling range of air (ATPCO, LCC and NDC), car, hotel, and rail content. It will achieve this by simplifying how Travelport connects and delivers travel-relevant content, regardless of the source, the seller, and how it’s consumed. It will also offer the tools to control new content in a way that optimizes revenue and provides a new approach to profile management where all components of a traveler’s journey are able to be retrieved, modified, and combined in any manner possible, regardless of source.

Travelport+ will include an ever-broadening array of new tools with merchandising (including cross-sell and up-sell) capabilities designed to improve the traveler experience, while maximizing revenue and customer loyalty for travel retailers and suppliers. Merchandising capabilities will build on our existing configurable storefront for travel retailers that delivers personalized and dynamic offers to provide travelers with the best possible choice.

“We’re here to power the change makers,” added Webb, continuing, “we’re championing simplification and supporting our agencies to be modern digital retailers. At Travelport, we’ve doubled down on what we do best; great content, better retailing and providing the best value to all parts of the travel industry. Nothing else, no conflicts or competing interests, simply powering the next generation of travel.”

Travelport+: The next-generation platform for the new era of travel

Sandeep Dwivedi, Chief Operating Officer at InterGlobe Technology Quotient, said, “Innovating and keeping abreast with modern technologies is paramount to success in today’s times. By simplifying travel retailing with Travelport+ and backing it with latest technologies, Travelport is ensuring greater advancements for our industry stakeholders, right from OTAs to small and medium agencies, irrespective of their scale of operations. This will certainly change the face of travel retail and take it closer to being an advanced industry.”
